

# Science and the Bible

## *Jim Downing*

### I. Introduction.

- A. A theory deals with apparent things.
- B. Law is an exact formulation of a principle.
- C. A scientist is someone who is simply a specialist in some area.
- D. The premises: the Creator of the universe and the Author of the Bible are the same.
- E. The Bible is scientifically accurate on all that it relates, and God's Word is true in all things.

### II. Evidences.

- A. Billy Graham lists many scientists who are Christians supporting the Bible.
- B. Some classic scientists include Isaac Newton and Paschal.

### III. What God reveals in the Bible about the earth.

- A. The spherical shape of the earth. (Proverbs 8:27, Isaiah 40:22)
- B. God hangs the earth upon nothing. (Job 26:7)
- C. The earth's landmass is boxlike - Astronauts have noted that the land appears shaped like a box having four corners. (Revelation 7:1, Isaiah 11:12)
- D. The earth rotates on its axis. (Job 38:14)

### IV. What God reveals in the Bible about other things in nature.

- A. The Holy Spirit was not talking about the Sun's rotation but circuit.
- B. The sun returned ten degrees which determined the missing time discovered by a scientist. (Joshua 10:14, Isaiah 38:8)
- C. The Bible reveals the ocean streams. (Psalm 8:8)
- D. Life was revealed to be in one's blood. (Leviticus 17:11)
- E. A race cannot be distinguished by blood. (Acts 17:26)
- F. The water cycle is revealed. (Ecclesiastes 1:6, Job 36:27-29)
- G. There exists things that cannot be seen. (Hebrews 11:3)

H. What holds the atom together was said to be a mystery. One said, it is “Colossians power.” God holds it all together. (Colossians 1:16-17)

I. It is possible that two worlds can simultaneously exist in the same place at one time due to the porosity of matter. The believer is seated in heavenly places and may simply be on another frequency. There is a whole world that one cannot see. (Ephesians, 2 Kings 6, Psalm 34:7)

Application questions.

1. How is one to see the relationship between the Bible and science?

---

---

2. Does the Bible reveal scientific facts that had not been popularized until now? What do you think?

---

---

3. How would you defend the Bible to someone who sees it in contradiction to science? List at least three things you would tell the person.

---

---
