The Most Important Job In The Universe

Being a mother is an important job, but one that can easily feel frustrating and unrewarding. Jean Fleming shares her hopes and frustrations about motherhood in *A Mother's Heart*. As a grandmother and the mother of three grown children, Jean reveals what it means to be a godly mother and offers encouragement to mothers of all ages and backgrounds.

She'll show you how to distinguish between your role and God's role in raising children, explain how to take a spiritual inventory of your child's life, and teach you to pray effectively for your child. She'll also help you be thankful for your child's strengths and weaknesses.

You'll be blessed by her insights as you learn how to develop godly values, vision, and character—and how to instill those same qualities in your children.
